

Truma AquaGo

The revolutionary instant water heater

German engineered quality products since 1949

UNIQUE FEATURES:

- The only instant water heater utilizing hybrid technology with a temperature stabilizer (mixing vessel)

The industry's only true instant water heater ensuring hot water at every tap, any time*

Adjust water temperatures like at home for greater comfort

When showering, a constant hot water temperature is maintained even after the water is turned off and then back on again – no risk of scalding – no temperature fluctuations

- Constant water temperature at 120 degrees, even with high flow rates of 1.5 g/pm to as low as 0.4 g/pm

No adjustments necessary

- At 60K BTUs, it is the most powerful RV water heater on the market

Microprocessor controlled stepless burner that modulates between 20,000 BTUs and 60,000 BTUs depending on the incoming water temperature and flow rate

Highly efficient, take a 20 minute shower each day for a month straight on a 20 lb. propane tank

*Truma AquaGo comfort plus

Truma AquaGo

The revolutionary instant water heater

German engineered quality products since 1949

UNIQUE FEATURES - CONT.

- Simple maintenance with “Easy Drain Lever”
 - Quick winterization, no water stains and no need for any special tools
 - Reusable filter cartridge protects the internal components
 - No Anode to replace
 - The only water heater in the industry with decalcification technology (performed by dealers only with the basic model)
- The Truma AquaGo can be retrofitted on any RV

WARRANTY:

- Standard (1) year parts and labor
- Additional (1) year parts and labor after product warranty registration (online at www.truma.net)

ANITFREEZE

Prevention of freezing using 12VDC electricity.

- Operating mode with installed electric antifreeze kit (available as an accessory) and appliance switched on. The temperature in the appliance is automatically held above 41°F (5°C).
- During operation, the yellow status LED 3 is lit.

Truma Combi

Quick Reference CP Plus Functions

ADJUST ROOM TEMPERATURE

Range: 40-86°F (5-30°C)

SELECT ENERGY MODE

- a) LP gas
- b) MIX 1* - Electricity 850W + Gas
- c) MIX 2* - Electricity 1700W + Gas
- d) EL* - Electricity 850W
- e) EL* - Electricity 1700W

ADJUST WATER TEMPERATURE

A) BOILER

Hot water generator is on. Icon flashes until desired temperature is reached.

B) ECO

Water temperature is 104°F (40° C)

C) HOT

Water temperature is 140°F (60° C)

D) BOOST

Boiler content is heated quickly (boiler priority) for up to 40 minutes. The water temperature is then kept at the higher level (about 144° F (62° C) for two subsequent heating cycles. When the water temperature is reached, the room is heated again.

Truma Combi

Quick Reference CP Plus Functions - Cont.

SET CLOCK TO CURRENT TIME

SET TIME SWITCH

Set a start time and end time for room temperature, water temperature, energy mode and fan speed set points.

SETTINGS

Index - Show version number of connected device

Bright - Adjust backlighting

Lang - Adjust language

12-24h - 12/24 hour mode

Temp - °F or °C

Offset - Calibrate temp offset

Pr set - Factory reset

SELECT FAN SPEED

OFF

Fan is switched off (If furnace mode OFF)

A) VENT

Circulating air (If furnace mode OFF)

B) ECO

Low fan speed

C) HIGH

High fan speed

D) BOOST

Fast room heating. Available if the difference between the selected and current room temperature is >18° F (10° C)

Truma Combi **Combination furnace and hot water heater**

German engineered quality products since 1949

UNIQUE FEATURES:

- Near silent operation
- Lightweight and space saving
- North America's first and only propane powered combined forced air furnace and water heater
- Highest available energy-efficiency at over 90% - saves propane
- Industry's only combined forced air heater and water heater with 110V A/C heating – saves propane, allows for Lithium Ion battery heating
- System utilizes state-of-the-art digital, programmable controller
- Insulated, high strength, aluminum air distribution system
- Maintains constant temperature throughout the RV with an integrated duct work system
- No maintenance, no anode, stainless steel tank, fast recovery
- Minimum sidewall penetration – stealth look
- Easy winterization and draining with drain valve
- The Combi Eco is available in a 14,300 BTU system
- The Combi Comfort is available in a 20,400 BTU system
